NT Series

CSM_NT_series_DS_E_2_1

Better Compatibility and Easier-to-use Support Software

- Device monitoring and I/O comment loading functions facilitate system construction.
- Greatly enhanced NT Support Software with reusable screen data and powerful simulation on editing screens.
- Transfer the system program and screen data to ensure smooth on-site system maintenance and improve the efficiency of onsite work.
- Wide Range of Communications Interfaces.

Lineup

Model		del	NT631C-ST153(B)-EV3	NT20-ST121(B)

Japanese		iese				
	Englis	sh		C		
Language	Simpl (See no	ified Chinese tes 3, 4, and 5.)		0		
Traditional Chinese (See note 3.)		tional Chinese	0	-		

Note 1: There are some limitations on hosts that can be connected. Refer to the PT manual for details. C200H direct connections can be used with the NT20-ST121 (using the NT20-IF001).

2: The English version of the NT Support Tool must be used.

4: Purchase the NT20-ST121(B)-EC to display simplified Chinese on the NT20.

^{3:} Simplified Chinese is mostly used in mainland China and uses simplified characters. Traditional Chinese is mostly used in Hong Kong and Taiwan and uses traditional characters.

^{5:} A separate system program must be installed in the NT20 to use RS-232C memory links with the NT20. Simplified Chinese is not supported.

Ordering Information

International Standards

- The standards are abbreviated as follows: U: UL, U1: UL (Class I Division 2 Products for Hazardous Locations), C: CSA, UC: cULus, UC1: cULus (Class I Division 2 Products for Hazardous Locations), CU: cUL, N: NK, L: Lloyd, and CE: EC Directives.
- Contact your OMRON representative for further details and applicable conditions for these standards.

Specifications NT631C

General Specifications

Item Model	NT631C-ST153(B)-EV3
Rated power supply voltage	24 VDC
Allowable power supply voltage range	20.4 to 26.4 VDC (24 VDC -15%/+10%)
Power consumption	18 W max.
Ambient operating temperature	0 to 50 °C
Storage temperature	-20 to 60 °C
Ambient operating humidity	35% to 85% (with no condensation)
Ambient operating environment	No corrosive gases
Noise immunity	Conforms to IEC 61000-4-4 at 2 kV (power supply line).
Vibration resistance (during operation)	5 to 9 Hz, single amplitude: 3.5 mm 9 to 150 Hz, 9.8 m/s ² 10 times (1 octave/min) each in X, Y, and Z directions
Shock resistance (during operation)	147 m/s², 3 times each in X, Y, and Z directions
Weight	2.5 kg max.
Degree of protection (front panel)	Equivalent to IP65 oil-proof type and NEMA4 (See note.)

Note: The equipment cannot be used for long periods of time in locations which expose the panel to spills of oil.

Display/Panel Specifications

		<u>.</u>	
Item		Model	NT631C-ST153(B)-EV3
	Display d	evice	Color TFT LCD
	Number of dots (resolution)		640 dots (horizontal) × 480 dots (vertical)
	Effective display area		211 × 158 mm (10.4 inches)
Display	Display color		8 colors (intermediate colors can be displayed in tiling patterns)
	Service life		50,000 hours (until contrast is reduced by 50%)
	Automatic turn-OFF		1 to 255 minutes/None
Backlight	Service life when brightness is set to high)		50,000 hours min. (See note.)
	POWER	Green	Lit while power is being supplied.
		Green	Lit during operation
LED	RUN Orange	Orange	Lit when the battery voltage is low (when operating)
	Red		Lit when the battery voltage is low (when stopped)

Note: The time until brightness is reduced by half, under normal temperature and normal humidity.

Operation Specifications

Item	Model	NT631C-ST153(B)-EV3
	Number of switches	768 (32 × 24)
Touch	Input	Pressure sensitive
panel	Operating force	1 N max.
	Service life	1,000,000 operations min.

External I/F Specifications

Item	Model	NT631C-ST153(B)-EV3
Serial	Serial port A	Conforms to EIA RS-232C. D-sub 9-pin connector (female) +5 V (250 mA max.) output at pin No. 6
communications	Serial port B	EIA RS-232C, (RS-422A/485 selectable by memory switch setting) RS-232C: D-sub 9-pin connector (female) RS-422A/485: Terminal block (6 terminals)
Parallel I/F		Conforms to Centronics specifications, 20-pin half-pitch connector
Expansion I/F		Dedicated connector

Display Specifications

Iten	n Model	NT631C-ST153(B)-EV3
	Character displays (fixed display)	CF FOF man agency (in all disp monder)
	Graphic displays	65,535 per screen (including marks)
	Character string displays	Up to 256 per screen (40 bytes (40 characters) per string
	Numerical displays	256 per screen, max. 10-digit display (2 words)
	Bar graph displays	Up to 50 per screen, percentage display and sign display are possible
	Analogue meter	Up to 50 per screen, percentage display and sign display are possible
Display elements	Trend graphs	One frame per screen, 50 graphs per frame (only 8 graphs per frame with data logging)
ıy ele	Broken line graphs	One frame per screen, 256 graphs per frame, 512 points per graph
Б	Lamps	Up to 256 per screen
Ois	Image library displays	Up to 256 per screen
_	Touch switches	Up to 256 per screen, Max. overlap: 256 mesh
	Numeral inputs Thumbwheel switches	Up to 256 per screen
	Character string inputs	Up to 256 per screen
	Alarm lists	He to 4 manual new services
İ	Alarm histories	Up to 4 groups per screen
	Normal screen	The normal screen display
:ypes	Overlapping screens	A maximum of 8 registered screens can be displayed overlapped with each other.
Screen types	Window screens	Up to 3 screens (2 local windows and 1 global window) can be displayed at the same time.
လွ	Display history screens	Order of occurrence (max. 1,024 screens), order of frequency (max. 255 times)
Scr	een attributes	Buzzer, display history, background color, backlight, keyboard screen number
us	Max. number of registered screens	3,999 screens
Number of screens	Screen No.	0: No display 1 to 3999: User-registered screens 9000: "Initializing system" screen 9001: Display history (occurrence order) screen 9002: Display history (frequency order) screen 9020: Programming Console function screen 9999: Return to the previous screen 9021 to 9023: Device monitor
	een registration method	By transmitting screen data created using the Support Tool to the NT631C By transmitting screen data stored in a memory unit to the NT631C
Scr	een saving method	Flash memory (screen data memory in the PT)

Display Element Specifications

Display Element Specifications			
Item Model	NT631C-ST153(B)-EV3		
Display characters	Half-size characters (8 × 8 dots): Alphanumerics and symbols Normal-size characters (8 × 16 dots): Alphanumerics and symbols Mark data (16 × 16 dots): User defined picture characters		
Enlargement function	Normal size, double width, double height, and magnifications of 4X, 9X, 16X, 64X		
Smoothing processing	Available for enlarged characters with magnification of 4X or greater (excluding marks)		
Character display attribute	Normal, reverse, flashing, reverse and flashing, transparent		
Image data	Variable-size pictograph Size: Min. 8 × 8 dots, Max. 640 × 480 dots The size can be set in 8-dot units. It is not possible to set enlarged display, smoothing processing, or display attributes such as reverse/flashing.		
Library data	Combination of any characters and graphics Size: Min. 1 × 1 dots, Max. 640 × 480 dots Any size can be set. Enlarged display, smoothing processing, and display attributes such as reverse/flashing are displayed according to the setting registered.		
Graphics	Polyline, circle, arc, fan, square, polygon		
Line type	Solid line, dotted line, alternate long and short dash, long and two short dashes (only polylines for other than solid lines)		
Tilling	10 types		
Graphic display attribute	Normal, flashing, reverse, reverse flashing		
Display colors	8 colors (black/blue/red/purple/green/light blue/yellow/white)		

Data Capacities

Item Model	NT631C-ST153(B)-EV3
Screen data capacity	1 MB
Numeric memory table	2 words x up to 2,000 (1,000 tables can be backed up with battery)
Character string memory table	40 normal-size characters x up to 2,000 (Data can be written to and read from 500 tables)
Bit memory table	1 bit × 1,000
Mark data	224 (16-by-16-dot basis)
Image data	4,095 items
Library data	12,288 items

Specifications NT20

General Specifications

Item Model	NT20-ST121(B)/128(B)		
Rated power supply voltage	24 VDC		
Allowable power supply voltage range	20.4 to 27.6 VDC (24 VDC -15%/+10%)		
Allowable power interruption time	Not specified		
Power consumption	10 W max.		
Ambient operating temperature	0 to 50 °C (See note 1.) (with no condensation)		
Storage temperature	-20 to 70 °C		
Ambient operating humidity	35% to 85 % (0 to 40 °C) 35% to 50 % (40 to 50 °C) (with no condensation)		
Ambient storage humidity	35% to 85 % (-20 to 40 °C) 35% to 50 % (40 to 50 °C) 35% to 45 % (50 to 70 °C) (with no condensation		
Ambient operating environment	No corrosive gases		
Noise immunity	Conforms to IEC 61000-4-4 at 2 kV (power supply line).		
Vibration resistance (during operation)	5 to 9 Hz, single amplitude: 3.5 mm 9 to 150 Hz, 9.8 m/s ² 10 times (1 octave/min) each in X, Y, and Z directions		
Shock resistance (during operation)	147 m/s ² , 3 times each in X, Y, and Z directions		
Dimensions	190 × 108 × 53.5 mm (W × H × D)		
Panel cutout dimensions	178.5 + 0.50 × 98.5 + 0.50 mm (horizontal × vertical) Panel thickness: 1.6 to 4.8 mm		
Weight	0.7 kg max.		
Degree of protection	Front panel operating section: Equivalent to IP65 oil-proof type and NEMA 4. (See note 2.)		
Applicable standards	UL 1604 Class 1 Division 2, EC Directives		

Note 1: The display quality (e.g., contrast) will deteriorate at temperatures above 40°C. At low temperatures, the response speed will be reduced due to the characteristics of liquid crystal.

2: The NT631/NT31/NT20 may not be able to be used in locations subject to long-term oil exposure.

Display/Panel Specifications

Item		0!##		
		Specifications		
	Display device	Monochrome STN LCD		
		140 (128) × 260 (256) dots (horizontal × vertical)

Note: If screens require continuous screens, numeral settings, buzzer stop, or other system key functions, touch switches with the system key functions must be set for each screen using the Support Software. For details, refer to the NT20S Programmable Terminal User's Manual (Cat. No. V020).

System Program Transfer

By transferring a new system program, functions and performance can be updated without changing hardware.

- 1) The compatible combinations of NT631 models and system program versions are shown in the table.
 - :Indicates the preinstalled default combination of versions (recommended).
 - Indicates combinations of versions that can be transferred for operation.
 - ∴ Indicates combinations of versions that can be transferred but for which some functions are restricted during operation (e.g., high-quality character display).
 - ×: Indicates combinations of versions that cannot be transferred.
- 2) NT631 system program version 4.x can be transferred only with System Installer V2, which is available on the CD for NT Series Support Software version 4.08 or higher. Only system programs up to version 3.x can be transferred with older versions of the System Installer.
- 3) The NT20 system program can be transferred only with System Installer V2.1, which is available on the CD for NT Series Support Software version 4.8 or higher. It cannot be transferred with lower versions of the System Installer.

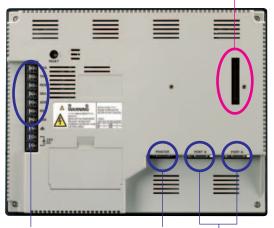

PT System (See note.)	Pre-V1	-V1	-V2	-V3
Ver. 1.x	0	0	0	×
Ver. 2.x	Δ	0	0	×
Ver. 3.x	Δ	0	0	×
Ver. 4.x	×	×	×	0

Note: The system version is shown in the System Installer program under "Ver."

External Interface

NT631C

Expansion interface connector

RS-422A Port Ensures 1-to-N

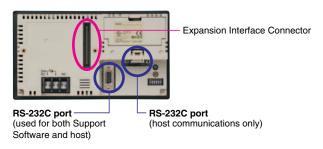

RS-422A or RS-485 communications, as well as long-distance communications.

Printer Port

RS-232C Port

The NT631 has two RS-232C ports that can be connected directly to bar-code readers for POP system construction. These two ports can be used simultaneously for the Support Software and host, to greatly improve debugging and maintenance efficiency.

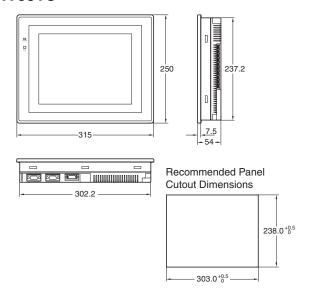

NT20

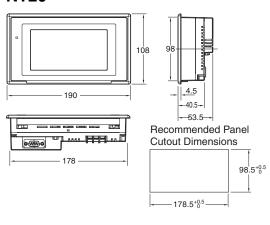

Debugging and maintenance is more efficient using two ports.

Terms and Conditions Agreement

Read and understand this catalog.

Please read and understand this catalog before purchasing the products. Please consult your OMRON representative if you have any questions or comments.

Warranties.

- (a) Exclusive Warranty. Omron's exclusive warranty is that the Products will be free from defects in materials and workmanship for a period of twelve months from the date of sale by Omron (or such other period expressed in writing by Omron). Omron disclaims all other warranties, express or implied.
- (b) Limitations. OMRON MAKES NO WARRANTY OR REPRESENTATION, EXPRESS OR IMPLIED, ABOUT NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OF THE PRODUCTS. BUYER ACKNOWLEDGES THAT IT ALONE HAS DETERMINED THAT THE

PRODUCTS WILL SUITABLY MEET THE REQUIREMENTS OF THEIR INTENDED USE.

Omron further disclaims all warranties and responsibility of any type for claims or expenses based on infringement by the Products or otherwise of any intellectual property right. (c) Buyer Remedy. Omron's sole obligation hereunder shall be, at Omron's election, to (i) replace (in the form originally shipped with Buyer responsible for labor charges for removal or replacement thereof) the non-complying Product, (ii) repair the non-complying Product, or (iii) repay or credit Buyer an amount equal to the purchase price of the non-complying Product; provided that in no event shall Omron be responsible for warranty, repair, indemnity or any other claims or expenses regarding the Products unless Omron's analysis confirms that the Products were properly handled, stored, installed and maintained and not subject to contamination, abuse, misuse or inappropriate modification. Return of any Products by Buyer must be approved in writing by Omron before shipment. Omron Companies shall not be liable for the suitability or unsuitability or the results from the use of Products in combination with any electrical or electronic components, circuits, system assemblies or any other materials or substances or environments. Any advice, recommendations or information given orally or in writing, are not to be construed as an amendment or addition to the above warranty.

See http://www.omron.com/global/ or contact your Omron representative for published information.

Limitation on Liability; Etc.

OMRON COMPANIES SHALL NOT BE LIABLE FOR SPECIAL, INDIRECT, INCIDENTAL, OR CONSEQUENTIAL DAMAGES, LOSS OF PROFITS OR PRODUCTION OR COMMERCIAL LOSS IN ANY WAY CONNECTED WITH THE PRODUCTS, WHETHER SUCH CLAIM IS BASED IN CONTRACT, WARRANTY, NEGLIGENCE OR STRICT LIABILITY.

Further, in no event shall liability of Omron Companies exceed the individual price of the Product on which liability is asserted.

Suitability of Use.

Omron Companies shall not be responsible for conformity with any standards, codes or regulations which apply to the combination of the Product in the Buyer's application or use of the Product. At Buyer's request, Omron will provide applicable third party certification documents identifying ratings and limitations of use which apply to the Product. This information by itself is not sufficient for a complete determination of the suitability of the Product in combination with the end product, machine, system, or other application or use. Buyer shall be solely responsible for determining appropriateness of the particular Product with respect to Buyer's application, product or system. Buyer shall take application responsibility in all cases.

NEVER USE THE PRODUCT FOR AN APPLICATION INVOLVING SERIOUS RISK TO LIFE OR PROPERTY OR IN LARGE QUANTITIES WITHOUT ENSURING THAT THE SYSTEM AS A WHOLE HAS BEEN DESIGNED TO ADDRESS THE RISKS, AND THAT THE OMRON PRODUCT(S) IS PROPERLY RATED AND INSTALLED FOR THE INTENDED USE WITHIN THE OVERALL EQUIPMENT OR SYSTEM.

Programmable Products.

Omron Companies shall not be responsible for the user's programming of a programmable Product, or any consequence thereof.

Performance Data.

Data presented in Omron Company websites, catalogs and other materials is provided as a guide for the user in determining suitability and does not constitute a warranty. It may represent the result of Omron's test conditions, and the user must correlate it to actual application requirements. Actual performance is subject to the Omron's Warranty and Limitations of Liability.

Change in Specifications.

Product specifications and accessories may be changed at any time based on improvements and other reasons. It is our practice to change part numbers when published ratings or features are changed, or when significant construction changes are made. However, some specifications of the Product may be changed without any notice. When in doubt, special part numbers may be assigned to fix or establish key specifications for your application. Please consult with your Omron's representative at any time to confirm actual specifications of purchased Product.

<u>Errors and Omissions.</u> <u>Information presented by Omron Companies has been checked and is believed to be accurate; however, no responsibility is accurate.</u> assumed for clerical, typographical or proofreading errors or omissions.

2014.4

In the interest of product improvement, specifications are subject to change without notice.
